About us

MTC is an Egyptian holding company head quartered in Alexandria-Egypt

MTC aims to give full integrated solutions in the telecommunication ,

information technology and power fields

Vision

Being the preferred choice for our intended customers in providing integrated telecommunication, information technology and power solutions in Egypt, middle-east and overseas

Mission

Our mission is concentrated in four main aspects:

Customer: Provide world-class quality integrated solution with the most adequate cost-benefit approach possible

Shareholders: Having a profitable company that makes our shareholders value their investment

Employees: Having professional and loyal employees, invest in them through applying the adequate international model, especially on culture and training perspectives, we intend to make MTC a real favorable work place

Society: Boost the productivity of the telecommunication, information technology and power integrated solutions, we target a "connected society" adopting world class quality
